

SOCIETY FOR CONSCIOUS LIVING

The Phenomenon of Crop Circles ***An evening with Guenther Schermann***

Cosmic Messages – galactic wakeup calls for mankind through wonderful designs in the fields of South of England

Astonishing pictograms appear every season (from May to August), mainly in crop fields in the South of England, an area with ancient sites and power places, well known are the stone circles of Stonehenge and Avebury. Together with Glastonbury they build a special triangle, where the most complex formations appear. In the last few years the greatest geometric messages have appeared since they first started appearing some 20 years ago, with some patterns being bigger than 200 meters in diameter.

In an impressive slide show Guenther will show the top 100 formations which have appeared since 1996, this also being the year he personally experienced a crop circle for the first time. Guenther will give an overview of the current developments in crop circles, mainly the highlights of the last years including geometric decoding and show the wonderful ancient places of South England. This ancient knowledge, passed down by the Mayans and other cultures, mankind is facing a new light, golden age, the biggest quantum leap in history since more than 5000 years. "2012" marks a new beginning, our consciousness is awakening!

A computer administration with more than 15 years experience as a crop circle researcher, together with Jay Goldner they have designed and created the two biggest crop circle exhibitions world-wide and annually travel with groups to the South of England. They also hold regular lectures (check out their website at www.kornkreiswelt.at),

Donation: €3
Where: SCL Club Room: F-1040
When: Wednesday, 16 February 2011
Time: 18:00 hrs
