Wednesday, 24 April 2013

18:00 hrs

Dr. Pearl was running a successful chiropractic practice in Los Angeles, when a series of bizarre occurrences led him to realize that his gift lay far beyond the realm of spinal adjustment. One patient after another reported healings from cancers, epilepsy, cerebral palsy and other severe health conditions, simply when Dr. Pearl held his hands near their bodies. Seeking to understand what was happening, Dr. Pearl consulted with leaders in science, medicine, and spirituality – discovering they did not have the answers either.

Supported by researchers affiliated with institutions such as **Harvard, Yale, and Stanford**, Dr. Pearl went on to pioneer studies on the healing frequencies running through him and their effect on people – which he came to term “Reconnective Healing®,” a comprehensive healing approach that transcends the complex rituals and techniques integral to numerous energy healing modalities. Over time, Dr. Pearl also learned how to teach others to access these frequencies and, as such, promptly and successfully facilitate healings for themselves and others. To date, 75,000 people around the world have been trained in Reconnective Healing®.
