STAFF ACTIVITIES AREA F 10 01

During Betty's experiences investigating metaphysical philosophy, she involuntarily found herself going into a deep trance in which her spirit guide, Valoures, would speak through her. At first, she consciously resisted his use of her body, but eventually she came to understand that this "channeling" was a way the spirit planned to work through her to help others. Today, Betty gives private readings as well as lectures and teaches metaphysical courses throughout the USA. She will be in Vienna for one week giving a three-night seminar:

Oct. 20 - Reincarnation

Oct. 21 - Life between life

Oct. 22 - Auras and spirit guides

from 6pm - 9pm each evening
