The feminine side of God

Mother Mary Teachings

Presented by Ms. Illeah Moore

Tuesday, 12 June 2012
F-1040, 18:00 – 19:30

Who is the Feminine Face of God? Why are her apparitions being seen throughout the world at an ever increasing rate? And what is her message to humanity at this time?

Illeah Moore, a published author and lecturer, has given her life over to Mother Mary's guidance and direction. In May of 1996, she travelled to Germany, Austria and Switzerland at Mother Mary's direction, leading large events to anchor Her light and love into the people. During her European tour, Ms. Moore stopped in Ibiza, where there is an 8th-century basilica dedicated to Santa Maria de las Nieves. Each morning, she would sit in the church and record Mary's message for the day, as well as responses to questions that were being asked. All the material in her published book was recorded during that period.

Ms. Moore will present Mother Mary's messages, which are received in simple words and phrases so that her teachings can be understood by anyone, of any religion. Her teachings center around the importance of each individual having his or her own inner connection with God. Mary's spiritual teachings are not meant as a separate part of life, but are to be used in conjunction with everyday living - in business, in the home, with relationships, in dealing with difficult situations and communications.
