MANA - All power comes from within

Ho'oponopono means to make things right. Essentially, it means to make them right with the ancestors, to make it right with the people with whom you have relationships, or to bring other situations in balance. Healing occurs when conflicts and stress are minimized and love is restored.

PONO - Effectiveness is the measure of truth

Together we will do:

- The principles of Huna
- Ho'oponopono: Ritual for forgiveness and cleansing
- Production of harmony in the inner and outer self
- How to focus your mental forces for prosperity, health and happiness
- Find clarity and purpose in life, fulfilment and joy

ALOHA - To love is to be happy with
