

Spiritual Growth in Times of Change

ASIL TOKSAL

Thursday, 17 November 6:30pm

Have you noticed an increasing desire to evolve yourself because of these rapidly changing times? How can you harness this impulse towards your own growth as a human being? Can you do so in community with others?

*Join us for a talk, wisdom transmission and energetic alignment on **Spiritual Growth in Times of Change** with trance channel and leader **Asil Toksal of Ascension One**.*

Asil leads the work of Ascension One, a growing global educational organization and community of spiritual practitioners who are dedicated to evolving their own consciousness as "pillars of light"; a pillar of light is an individual who recognizes that the seed of evolution begins within and cultivates practices of silence and presence to maintain an inner alignment even in the midst of outer challenges in the world.

Asil is a trance channel to benevolent energies and wisdom from higher intelligence guides who are helping humanity's collective evolve during this time of unprecedented change. He has hosted hundreds of spiritual gatherings around the world for both groups and influential leaders to ignite and support their evolutionary impulse towards alignment, presence and silence.

Asil provides energetic grid work through expeditions to global sacred sites and sites of global trauma. This program called Sacred Earth acknowledges the consciousness and evolutionary journey of the planet itself and the symbiotic role she plays in contributing energies and assistance for humanity's evolution.

Asil authored the book, *Transmission: Awakening in a Time of Transition: Vol. 1*, an autobiographical account of his journey as an entrepreneur whose personal quest for meaning unexpectedly led him to becoming a channel for celestial guides. The book contains channeled wisdom from the guides and an urgent message for humanity at this critical time of awakening and transition: there is no time to delay, and the next step in humanity's evolution begins with the awakening and evolution of each individual.
